Sean Rich
Full Stack Developer

Summary

I'm a web developer who has recently learned modern web development from Coding Dojo. My goal is to grow with a company where I can be greatly challenged to work in a highly team, to excel and learn more about modern web technologies. I'm a proven hard worker, organizer, time manager, from my previous career where I worked in plastic manufacturing. I'm very eager to apply my skills and stay on the cutting edge of my field.

Technical Experience

Freelance, July – present, Seattle, WA
- Fitness Website, is a website for my couch who is an IFBB Pro body build.
- Diet app, calculates your food and determines how much nutrients in diet.

Graduate, Coding Dojo, April 2018 – July 2018, Seattle, WA
